Any files that are shared are automatically stored in the course library for future access. Candidates have the ability to turn on email notifications which are sent daily to notify the user if communication has taken place over a 24-hour period.

The evaluations tab is where a candidate can view their final grade(s) for the required course criteria. This will operate as a traffic light system (red light = fail, green light = pass). Additional evaluation criteria beyond assignments can exist. For the GR IP course, you will notice an “Attendance and Participation” evaluation criteria. This will be graded at the state’s discretion based on the candidate meeting course expectations.
